Professional Experience and Curriculum Vitae

Born on the east coast with a west-coast heart, I enjoy exploring outdoors as much as I do exploring in the studio. I like tall mountains, simple meals, a good campfire, and a big ocean.

My love for food grew out the the home-cooked goodness that my mom prepared, and an appreciation for the entire process of how things end up on our plates.

As far as photography goes, I like what's simple and original. A big fan of graphic design, I'm drawn to posters, typography, and anything bold, including sharks.

When I'm not photographing, I'm surfing, traveling, cooking, or playing life up and down the coast.
