

Professional Experience and Curriculum Vitae

Hi Gentlemen! My name is Chitra Iyer and I am 22 years old girl from Chennai. I've extreme sensuous desires and I love spending some quality time with different companions. I am into modeling and serving my high-profile services to various individuals. Spending quality time with them has always given me unique feelings. I've a curvy figure (38-26-36) and a charming personality.

Escorts are generally hired for enjoyment as well as sexual satisfaction. People love to spend their time with Chennai female escorts as they provide everything they miss when they are making love with their girlfriend or wife. Many people, in their reviews, have written that their female partner was very friendly, open-minded and well-experienced. They have also written that if given chance they would love to spend one more night with their partner.

Well, it's obvious that these clients didn't get the ultimate satisfaction without doing anything. In order to gain something, you must lose something; right? So if you really want to enjoy the sex, you also need to please and praise your partner. It encourages her to do it in a better way. In fact, several escorts services in Chennai encourage their client to be friendly and treat the girl nicely. It not only makes her feel respected but also open herself up.

Be confident and talk freely: She will know nothing on her own if you don't tell her unless she is a magician which; of course, is impossible. So, be open, confident and talk freely. Tell her what are your likes, dislikes, and deepest fantasies. Chennai independent escorts prefer honest men and do everything to please them. Plus, when you open yourself, she will not hesitate to share her feelings and preferences.
