Professional Experience and Curriculum Vitae
Hi, I'm Chris Johnson. I was born in Harrison, New York and raised in Columbia University. I learned HTML & CSS when I was 12 years old and started my first website. A few years ago, I transitioned from being a front-end web developer to working on PsychologyWriting.com - an online psychology database with over 10,000 essay examples on different topics written by students around the world. I love reading, travelling and sport (especially basketball). My lovely wife is my best friend and we love spending time together.
