Professional Experience and Curriculum Vitae
Citizen Pictures is in a unique position: all of our resources are under one roof. We are a television production company and a technically advanced post- production facility, all housed in a renovated warehouse in Denver, Colorado. Our 15,000 square foot studio is comprised of an all-HD digital production center, full sound stage, ten HD edit suites, audio suite, and two graphics suites. Staff Producers, DPs, artists, and editors execute large-scale productions from start to finish within these walls. Included amenities and ample space for in house clients allow our creative team to collaborate easily with our customers on all projects. Whether it is our clients in network, agency, or non-broadcast, the Citizen team approaches each creative project with inspired thinking and business processes that ensure smooth, effective campaigns are delivered to every client.

Previous Clientele
Animal Planet, Cactus Communications, Cooking Channel, Discovery, Fine Living, Food Network, Military Channel, Oxygen, Target, Travel Channel, TV One, Vladimir Jones
