Professional Experience and Curriculum Vitae

Claudio Beier was born and raised in Brazil. After receiving a business degree and working in marketing and advertising, he moved to the US where he now pursues a more creative career. Since the conclusion of Hallmark Institute of Photography's intense program, where he graduated with the highest accolades, he moved to Miami where he now shoots commercial and editorial assignments specializing in fashion, portrait and active lifestyle. Claudio's extreme attention to detail, ability to orchestrate large sets, technical savvy to produce the most exquisite lighting schemes, and a contagious sense of humor are just some of the assets he uses to consistently go above and beyond his clients' expectations.
