Professional Experience and Curriculum Vitae

For the last three years, I have been Creative Director of the slot game company Epsilon Gaming. I oversee and design our games from concept to the finished product on the casino floor.

Previous to that, I worked in a studio environment, as an illustrator at High Five Games. Working with the art directors and animators, my task at High 5 was to mimic pre-existing art and create a cohesive and exciting game out of the many disparate elements that make up a slot game.

I have been lucky enough to work on some of the most exciting properties in existence today. These have included Star Wars, Marvel Comics, Star Trek, Magic: The Gathering, A Game of Thrones, World of Warcraft, Everquest, Warhammer, Warhammer 40k and the Lord of the Rings. I have provided storyboards, concept designs and production illustration for hundreds of commercials and worked on major campaigns with advertising agencies and clients around the world.
