Professional Experience and Curriculum Vitae
Big hello to all…

I currently work as a freelance illustrator in the great seaside city of Brighton, having finished my degree studies in Design and Illustration prior to the world of professionalism. I am a highly driven multi-functional Illustrator and Designer, producing fresh innovative visual designs formed of both digital and distinct hand-rendered techniques and styles. I have a great understanding for briefs and client commitments, accompanied by speedy turnarounds - always done with a smile!

I’m available for any and all commissions and would look forward to discussing my work, skills and capabilities with you in more detail. I'm very outgoing, reliable and friendly so please feel more than welcome to contact me any time.
