Professional Experience and Curriculum Vitae

Ahoy there me hearties!

Allo, I'm a freelance illustrator and animator based in the UK. I work from my studio in Brighton creating all kinds of bright and daft doodles.

Since graduating from Edinburgh College of Art back in 2004, I've created illustrations for clients in advertising, editorial, web and music.

I've wandered into the magical land of toy design and children's books, had a pop at album artwork and gig posters, and set sail into the messy but colourful world of screenprinting.

In a nutshell I loves the doodling... cheese and pickle sandwiches, jammie dodgers and flapjack (the cartoon that is)
