## Professional Experience and Curriculum Vitae

Creative Vanguard was started as an alternative solution for photographers to access the support they need to run and market their studio without the cost and stress of hiring a full time employee. As creatives and business owners we often get bogged down by business chores (those little time consuming tasks like paperwork that take up so much of your valuable time), leaving us less time to focus on creating and growing. Creative Vanguard provides virtual studio management and marketing consultant services for photographers that remove the burden of running your business, allowing you to be more productive and increase your success both personally and professionally.

## Previous Clientele

## Awards and Accolades

So who am I? Who are you trusting with your business?

I am a coffee addict. I work most days in sweats or pajamas. I am an obsessive reader and have an insatiable need to learn new things. I still play video games and I love to sing karaoke (badly). I might be the only person that will tell you what you need to hear when no one else will. I'm sarcastic and funny, even when I'm not trying. Honesty and Integrity are important to me. And I love pina coladas and getting caught in the rain. :)

Working in commercial photography for the last 5 years as a studio manager, I've met a lot of creatives and entrepreneurs who were passionate about their career but were stuck under the everyday business chores. That's where I come in. My expertise helps you create a successful business and a satisfying life. I am always learning new skills so that I can provide my clients with the best service possible.
