Professional Experience and Curriculum Vitae
I like taking photos and laughing at them. I have fun having everyone rush into the self-timed photo. I love going to the movies and talking about the movies themselves. I read “Ciak,” and am proud of it. I like diving into my “creativity baskets” to fish for new ideas. I love traveling and I love finding myself in new places, with new thoughts, amongst new cultures, and amidst foreign languages. I am eager to place new travel tacks on my world map. I am curious of what goes on behind the scenes. I read detective books in one go. I am always running so that no moment is wasted. I like being with people. I like communicating with each one of them. I love planning parties, and all sorts of events. I enjoy taking care of the details, even when no one notices. I never throw anything away. I find what is useless now, isn’t so in the future.
