Professional Experience and Curriculum Vitae

Hi I'm Daniel I am a multidisciplinary designer specialising in Brand Identity and Information Design. As I am a one man studio I offer a one to one approach guiding my clients through the conceptual stage right the way through to the finished product speaking in plain English without the creative jargon.

As a designer my soul aim is to produce something that is timeless and something with substance, I don't believe in gimmicks or tricks, I believe that good design is found through subtraction and honesty and should convey a emotion, it should instantly make people feel a certain way and speak for its self.

The creative fields I practice in are:

Branding
Information Design
Typographic Design
Editorial Design
Motion Design
Illustration
Retouching

If you are looking to start or grow your business regardless of it's size then please get in touch it would be a pleasure to hear from you.
