Professional Experience and Curriculum Vitae

I am a Motion Graphic Designer/Editor based in Manchester and London. Currently employed at the 24-hour News Channel Sky News as a Freelance Motion/Graphic Designer. Prior to that I was studying for a BSc (Hons) at Staffordshire University, focusing on Post Production.

I aim to cover as many corners of the design and editing world as possible so find myself editing one week and working on leaflets the next. This makes my portfolio quite varied and individual.
