Professional Experience and Curriculum Vitae

Founder of Coblitz Creative Concepts, LLC providing photographic products & services including fine art, portraits, commercial, and event photography. Artists Statement: Mr. Coblitz has an artistic focus on combining creative shooting with image processing techniques to alter fairly normal subject matter to show the beauty in the mundane. One of his goals is to prevent a reaction from viewers such as, I have a camera. I could do that. This reaction is rare with his photos. His other focus is on innovating new techniques or media. An example of this is his photographic sculpture, which is 3D sculpture with the surface being a photograph. He also has created caricatures made photographically, and photos that change content or appearance as you approach or move around them (without using lenticular screens or moire effects).
