Professional Experience and Curriculum Vitae

I am a Kansas based digital designer with 10 years of experience working within the field. I am a member of St Martins College of Art and Design alumni with a Masters degree in Digital Media. I have come from a diverse background in fine and applied arts. Last year I read a book about Lal Kitab Totke to Get Boyfriend Back. I had a desire to plunge into the digital world. It is a place where everything is possible, especially when the digital is mixed with handmade crafts.
