Professional Experience and Curriculum Vitae

iContract:

April 2006 – December 2007

iContract was my big jump. It was here that my design skills took off. Also iContract being a contemporary advertising agency, it gave me ample exposure with regards to uniting designing skills with marketing challenges. Furthermore, I also got an opportunity to work with some big brands, which helped me understand the enormity of the job, both in numbers as well as in expectations.

Some prominent brands on which I had worked, reliancemoney.com, HSBC Global, VISA, Cadbury Bytes, Shopper Stop, Travelguru.com etc.

VOW Designs:

January 2004 – April 2006

Did a lot of fundamental designing stuff that helped me sharpen my basic designing skills. Projects undertaken- website design, stall architecture, exhibition kits and print accessories. Basically substantial amount of manual labour stuff, which involved long hours of staring at the computer screen.

June 2002 – April 2004

Diploma in Applied Art

L.S. Raheja School of Applied Arts, Mumbai, India.

Learned, how to learn!
