Professional Experience and Curriculum Vitae

I became inspired when working on several DIY projects for my wedding. Some of those projects included my candy buffet labels, sign, to-go box labels, escort cards, table signs and place settings. However, I used to make and sell homemade bath bombs, bath salts, milk & honey baths, and some candles, so thought I'd start that up again. If there's something in particular you're looking for for your wedding or event, please contact me and I'll be glad to answer any of your questions.
