Professional Experience and Curriculum Vitae

I am a professional photographer & videographer based in Aberdeenshire in Scotland. I create videos and photos for commercial clients as well as creating beautiful wedding photos and unique individual portraits.

Away from my cameras I enjoy working in Photoshop, Lightroom, Premiere Pro and After Effects. I edit video material and create visual effects for my own projects as well as for other video creatives.

I love to teach, to help others to develop their abilities, I run workshops on Photography, Photoshop, Lightroom, and Video Creation.
