Professional Experience and Curriculum Vitae
We dew environmental portrait photographer working with advertising and corporate clients. My style is a little more funky, with a soulful twist.

Dewey Chapman is an unfair advantage.

He gives agencies and producers who demand top-notch quality and professionalism — especially in a pinch — a rare combination of excellence and mellowness. He's a shooter's shooter — constantly looking for the perfect composition, light and ways to push boundaries. But he has a wonderful way of making his subjects relax and trust him.

On the one hand he works hard to fit your bill and make you happy. On the other, he's hungry to add value with ideas you hadn't considered. Above all he's flexible, cheerful and reliable. Plus he's just a fun guy. You're going to flat out enjoy working with him.

We've put Dewey through the ringer and he's managed to keep a pleasant, endearing charm that really sets him apart from the prima donnas. He's the kind of guy who runs on autopilot and surpasses expectations. I'm certain he will make your next campaign look like a million buck — even though that's not even close to your budget. Expect rock star value that makes your clients happy and your shop look sharp. The guy's a secret weapon.

Now go ahead Dew it hire him. You'll be glad you did.

Greg Veerman
Principal/Executive Creative Director
Astronaut Studio
