Professional Experience and Curriculum Vitae

I am a women's clothing boutique owner / stylist. I love art, fashion, travel and design. We cater to every woman. I love styling photoshoots, producing events, and would really like to get into working editorials. I have lived abroad in Asia and Europe so I have had the opportunity to be exposed to different cultures and fashions.

My style as a stylist is very classic, chic, sophisticated with finesse. I like to think out of the box as long as it doesn't compromise a look. I offer services such as closet reorganization, makeovers to personal shopping.
