Professional Experience and Curriculum Vitae

Diramazioni is a two creatives team based in Milan. We are two illustrators/designers, partners in work and life and also collaborating on the same illustration combining our vision and skills. "Diramazioni" comes from the following concept: through the possible ideas, stratification of thoughts and branches of colors you can reach a recollection. This is why we consider different projects and like to create something which is visually and conceptually coherent with our clients need and our personal quality- philosophy and visual feeling. We have developed our visual experience using various media and mixing drawing/painting/material techniques with digital ones as photography and photoshop. We primarly are illustrators, and as freelancers illustration is the part of our activity we want to focus on mostly. We like to work on editorial illustration, expecially cover illustration, and also in music for cd artworks. Anyway, we are very interested and opened to experiment different subjects, materials and illustration fields. Featured in: interview in DPI Magazine of Taiwan (2007), "Design Stars Boulevard" (2008) (special book including worldwide contemporary illustrators), Computer arts magazine gallery (italian version).
