Professional Experience and Curriculum Vitae

Hi, I'm an art director and illustrator based in Santiago.

I have worked on design projects and advertising for several brands and customers, focusing my interest in editorial art direction. In that area, I have worked principally in fashion and decoration magazine for the retail industry.

In addition, my work comprehends projects on identity design, packaging and advertising.

As an illustrator, working on personal projects or on a commission basis means a plus for the development of my career. My work is a combination of elements and characters from my imagination and their personal context based on emotions and predispositions that I can see in the reality.

The design process, like the color choice and getting finding graphic balance is something I'm passionate about.
