Professional Experience and Curriculum Vitae
Doodlewala is a design brand for cartoons-based products and services. I create and sell designer products under the brand name of Doodlewala. I also do commissioned assignments. My signature is smooth quirky lines.

I specialize in business solutions with cartoons as a tool. Cartoons can be an effective means to demystify a concept, build a brand, create stickiness for products, grab eye-balls, educate with ease, create awareness, or build an identity.

Also run an art project called Pebble People. I design curios and installations using pebbles and rocks. This unique art form has been exhibited in galleries and been widely featured in the media.

Previous Clientele
Microsoft, Orange telecom, Economic Times, Monster.com, Ogilvy
