Professional Experience and Curriculum Vitae

I am passionate about modeling and fashion designing along with that love to read about sifli ilm specialist in Delhi. It's not like modelling was my career, I had a steady job, so I easily quit. But imagine those who have a passion for modelling and more than that, those have taken up modelling as their only career. I took a few 'modelling shots' of myself and also had some of my friends take a few pictures of me all prettied up and posing.
