Professional Experience and Curriculum Vitae

I’m Jennifer, I’m an artist, illustrator, educator, mother, and traveling nomad. I’m American, but am currently living and working in the UK. My whole life I’ve been drawn to creative fields- my undergrad degrees are in Architecture, Graphic Design & Printmaking, and after a decade-long career as a professionally exhibiting artist and curator, I decided to go back to school to get my MFA in Textiles (from Savannah College of Art & Design).
