Professional Experience and Curriculum Vitae

Born in Ponorogo, east Java, Indonesia, Singgih Dwi Cahyanto is the original name given by my parents since July 3rd, 1983.

I begin my career four years ago as a digital artist, graphic designer, and art director but then I choose to be a freelancer until now. Finishing my degree in visual communication design is also what I do now. Every artwork that I made is a compilation between vector and bitmap technic, my interest in colour composition and mystical thing is an inspiration for the artworks that I've done.

Now with Jogjaforce (<http://www.jogjaforce.com>) we try to introduce the world of digital art by making a design portal (<http://www.designdiary.org>) and a ezine (designflip magazine).
