**Professional Experience and Curriculum Vitae**
My name is Anniina. I'm Your professional, experienced dog trainer based in Inner West Sydney with 10 years of experience in dog training. I use positive dog training methods. However, this doesn't mean bribing your dog with treats. I'm a firm believer of 'nothing in life is free' and follow this principle when training dogs. Every treat needs to be earned and even then they will be faded out eventually. An obedient dog obeys the owner because they want to, not because the owner has treated. To be successful in training dogs you need to understand canine behavior and how they learn. This is what I can help you with. When we understand what drives our dog, we can take advantage of it and therefore gain better control of our dog.
