Professional Experience and Curriculum Vitae

For the last five years, I have worked as a retoucher, perfecting images for companies such as Nike, Intel, Genentech, Audi, Levi's, Chevrolet, Oakley and Old Navy. I use tools ranging from Adobe Suite and Corel Draw to Maya. I have also supported client pitches through rapid iterations starting from scratch with pencil sketches and stock images. I have experience through the entire creative process, managing multiple projects with tight deadlines from concept through to award winning delivery.
