## Professional Experience and Curriculum Vitae

Electrolychee is Marcushiro & Bru.

We are a local studio in the Philippines that merges illustration with design. Our works play within the realms of slick, computer-generated vector art and organic, hand-drawn imagery.

We are also full-time visual artists who frequently showcase our pop-inspired artworks in the metro's alternative galleries.

Besides painting, participating in design conferences and collaborating with both local and foreign artists, our studio also produces Electrolychee-branded Strange Creations merchandise.
