Professional Experience and Curriculum Vitae

Marketing strategist and award-winning creative director with 2 years of working experience for UAE based agencies on international brands, as well as a creative generalist for startups. Social, digital and experiential background with data and analytics chops. I believe data without understanding is noise and creativity without insight is an art project. Blending data analysis with creativity is the most powerful combination in marketing and I do both very well. I am working with custom logo design company and I am always willing to work with a definite budget and always willing to hear my clients suggestions.
