Professional Experience and Curriculum Vitae

Performers do not specialize in online marketing and promotion which is why entertainment individuals need an outlet for advertising their services.

We help design and publicise entertainers' online profiles so that they can rise to the top of search engines. Their profile will include pictures, videos, and a summary about their services.

This way thousands of event planners can browse through different entertainment options.

Our new audition and opportunity finder service allows acts to search and apply to a huge selection of entertainment vacancies including the latest singing jobs and musicians wanted posts to get work both locally and around the world.

All a one stop shop.

Previous Clientele

So many to list. From private weddings and parties to huge corporate gigs we supplied musical entertainment ranging from soloists, singers, quartets and groups.
