Professional Experience and Curriculum Vitae
Eric Russell is a NY - SLC based Director of Commercial Photography and Film. Over the years, his background in Advertising combined with almost two decades of production experience has become a valuable asset for his clients, as well as the productions and crews he works with.

Eric's work has been featured in many traditional and new media campaigns, including work on accounts such as Hilton (Waldorf Astoria), BMW, Pepsi, NuSkin, Select Health, and The Killers to name a few. While his studio is located in SLC, Utah, Eric splits his time between Salt Lake, New York and traveling on national assignments throughout the country.

Eric specializes in architectural, travel lifestyle and advertising photography and as a Director of Photography for motion picture productions. On set, Eric is tenured and tireless, and has the pre-production organization and quick eye to maximize production budgets. This energy translates seamlessly into his post production work where Eric still today does much of the post grading and optimization of his work.

Eric loves his 'work'. Even on his off days, you'll still see him, camera in hand documenting the world around him including the personal travel, skiing, mountain and road biking he does - much of which is done with his son and sidekick Preston.

Previous Clientele
Hilton (Waldorf Astoria),
BMW
Pepsi
NuSkin
Select Health
The Killers
