Professional Experience and Curriculum Vitae
Established & Sons is a uniquely positioned British design company focused on producing and representing all that is innovative in contemporary design. Working with some of the world leading designers, architects and artists, Established & Sons since its launch in April 2005 has become highly revered and respected internationally.

We have not wavered from our original mission, which was to create a world leading design company that would provide a successful commercial platform for British and British-based designers, this is still at the very roots of our business, only now, having become a leading brand in the industry we are attracting and working with the best designers from overseas.
