Professional Experience and Curriculum Vitae
Menta is a multidisciplinary design studio and communication agency specialized in various fields related with publicity and design. A profile that covers from the consulting and coordination of corporate identity projects to the production of catalogues, including web design projects, space design, signage, editorial design, as well production of video adapted to the new channels of content distribution.
Elisa Gómez, Raül Climent and Xavi Calvo are formed in different academic fields related to art and design. After years of working in different agencies of design and communication they join to make the Menta team. This way, the professional background of its members allows the company to develop each project from different fronts, working the design from a realistic and creative approach, taking into account every little detail and with the necessary freshness and motivation to confront any challenge.
