Professional Experience and Curriculum Vitae

My name is Mark Rigby, I am a freelance motion graphics designer and 3D all-rounder running a small business from my evil lair in Melbourne. I have actively been involved in the industry for the past 15 years working as a creative director for 2 previous companies and various other evil roles within the post industry.

I absolutely LOVE what I do and have a great passion for the industry, and have picked up some interesting weaponry over the years for my creative arsenal. I love a good creative challenge and to tackle jobs that others might put into the too hard basket, and use my diabolical skills to offer creative solutions to design problems. I think inside and outside the square, circle, triangle and any other geometric shape you can think of. I know for a fact that there are no boundaries within this field, and that anything is possible with the right amount of imagination, passion, spirit and determination.
