Professional Experience and Curriculum Vitae

I'm a designer, illustrator & art director who grew up on the sunny shores of Sydney and spent happy years doodling & covering the carpets in ink. In 2003, armed with paintbrushes & a jar of vegemite I travelled across the world to a fresh new canvas, London, and have been making a mess here ever since.

I've worked on many music campaigns for great music icons, including David Bowie, Crowded House, Sarah Brightman, Paul McCartney & Blur to name a few. I've also had the pleasure of working in the publishing world, where I'm currently illustrating my own children's book and also work on book covers for a range of titles.
