Professional Experience and Curriculum Vitae
Australian artist living in Dubai, UAE.

Original works on canvas and Plexiglas.

Specializing in corporate, hospitality and healthcare projects.

Originals are painted on canvas or reverse painting on to acrylic .
Reverse painting is an art form consisting of applying paint to a piece of glass and then viewing the image by turning the glass over and looking through the glass at the image. Prints are then produced on canvas, paper and acrylic panels.

We here at Lisa Fabian Art tend to favor the Acrylic (Plexiglas) look as it gives a polished, finished look. The image is viewed through the glass so there is no need for the additional expense of mounting and framing the work. Security devices on the back of the works are not necessary as the panels are installed in to the wall and held in place with stand off pins.
Works reproduced as prints on acrylic panels give a stunning look and compliment any contemporary interiors.

All work can be reproduced on acrylic, canvas and paper. Aluminium is a substrate that we are currently investigating.

My work is soothing yet powerful, relaxed yet vibrant. Each piece, whether original or print, has a beautiful organic fluid feel to it.

If you have a contemporary project that needs a little panache please give me a call or email me on lisafabianart@gmail.com

International projects are welcome.

Lisa
