Professional Experience and Curriculum Vitae

Hi! I'm a freelance web& graphic designer from Florence.

Always very curious, fascinated by the world of visual arts and design in all its forms, I begin my career as a web designer. The contact with the graphics comes naturally, and it is love. Fascinated also by the craft nature of the graphics, in my projects I tend to search for details and relationships with the surrounding reality. I love the printing, paper, the methods of printing and print finishing. I like to experiment and engage in personal projects, often handmade, even in areas that do not belong to me directly, such as packaging and design. I enjoy photographing, and when it's possible I go to a friend's print shop to get my hands dirty with ink printing of letterpress. Currently I attend in a graphic course at IED, work as a freelance, pursue personal projects, write on my blog and on Picame.
