Professional Experience and Curriculum Vitae

Fake Graphics Ltd. specializes in digital animation and illustration. We have been creating and managing image design, animation and post production for almost two decades. Fake is known for its skills in profound design and planning.

Fake, together with its partners, offers a large scale of work from previz and concept art, shoot supervision, 3D, 2D, compositing, editing, sound design and colour grading through to delivery of the finished project. And it's not only the quality of result, but we also put a lot of effort in production practices with agile working methods, which boost the level of producing and communication.
