Professional Experience and Curriculum Vitae

About working with me

When it comes to the shoot, I'm a deliberate, tenacious, demanding, perfectionist; just like you.

I deliver images that do what you want them to do, on time and on budget.

I approach each with clearly defined plan, which makes everything run more smoothly.

The shoot can be much more fun if the chaos and stress of trying to figure things out "on the fly" is removed from the equation.

I'm not just a photographer! I provide visual solutions that do what you want them to do, on time and on budget. Great images strengthen your brand and make customers want to buy what you're selling. Whether it's a product, service or yourself, my creative vision will help you get to where you want to go.

You don't need photographs. What you need is:

?*more visibility.

*more customers.?

*a growing list of leads.?

*for consumers to see you in a new light.

?*to convert those who have never heard of you into customers.?

*more engagement with people who want to be engaged with you.

?What you need is imagery that communicates to the customer in a language they understand, and delivers your message quickly and concisely.

I do high quality work, I am "direct-able" in that work, I'll make it easy for the customer to obtain and use that work. One of my first questions is usually "what works best for you?"

I want to hear and fully understand what you need, I want to offer you options, I want to brainstorm with you, I want to keep you up to date on what the status of everything is. I want you to be happy. I want my product to reflect what you really want and need even if you're not clear on the details at the outset.
