Professional Experience and Curriculum Vitae

Patricia received her M.F.A. in Medical & Biological Illustration from the University of Michigan, Ann Arbor. She has taught numerous undergrad and graduate level classes at the University of Michigan Art School, including multiple, international, accredited field-sketching courses from Costa Rica to Southern Africa. As a freelance Medical and Science Illustrator, Patricia's work has been featured in numerous solo and juried exhibits. She's experienced in surgical, botanical, patient-education, and vector-based illustration.

Previous Clientele

Past clients have included universities, science museums, hospitals, and publishing houses.
