Professional Experience and Curriculum Vitae

videoartist, live media & body art performer.

I studied as a digital artist and I've been always working as author, art director and filmmaker for independent high quality productions in Italy. Since 2003 I'm collaborating with New York artist Kristin Jones at "Tevereterno" project, creating installations in the City of Rome. I'm very active as a videoartist and performance artist in galleries and museums, in Italy and abroad. In 2010 I won Magmart Videoart Festival (Video Under Volcano) with my videoperformance CRY ME, and Celeste Prize International on-line vote in performance art section. As an art director I run "Ten" performance art festival in Rome (www.ten.roma.it)
