Professional Experience and Curriculum Vitae

My name is Giulia Mauri, I am an Artist, Children Illustrator, Video and Craft Maker. I was born in a small town in the North-East of Italy called Castelfranco Veneto, made famous by Giorgione. I now live in a little cottage in Surrey, England.

Since I was little I had a driving passion for nature which inspired me to paint and draw. This led me first to the Art School De Fabris (Nove, Vicenza, Italy) and afterwards the University of Art and Design of Venice (IUAV, Venice, Italy) where I specialised in Visual Arts and graduated in 2006 with honors.

I now run a small thriving illustrator and creative artist business from a little art studio where I though-rely enjoy working on all my artistic projects. Whether they might be illustrations or paintings for a private commission, designing a new illustrated product, filming and editing videos, or creative writing. If you'd like to work with me drop me a line here.
