Professional Experience and Curriculum Vitae

For over 15 years I have been working as a freelance graphic and web designer in the Oklahoma City area with both local and national clients. These businesses, organizations and individuals range from the energy sector to the arts. My main focus on each assignment is to promote the brand and communicate the message in the best way possible, whether that be interactively or through printed pieces. I have cultivated a skill set over the past decade to get the job done. And while I take my work very seriously, I don't take myself too seriously. I am easy going, level headed and open to critique. This makes me a great team member and easy to work with.

Previous Clientele

The Oklahoman Media Co., Lyric Theater of Oklahoma, Myriad Botanical Gardens, Cleats for Kids, Traverse Midstream, Permian Resources, Williams
