Professional Experience and Curriculum Vitae

Studio Salens is the official branding name of Salens Communicatie nv (°1990), founded by Guy Salens, graphic designer. From a graphic background, my studio evolved into a design studio for off- and online communication.

Everything starts with an idea, a story, ... whether it is a logo, a website, social media images or online movies. It's that creative mix that fascinates me. The search for a concept through which a company can implement a clear communications policy.
