Professional Experience and Curriculum Vitae
Hey guys! My name's Hash and I am a Motion Graphic Designer working as a freelancer by day, and Creative Director at my very own company, RoomCR6 by night.

I originally started up my creative career in Film and Production, but then followed up my love for VFX mainly in Motion Graphics and Design. I have always had a real passion for moving imagery and loved creating art that can’t always be made in the physical world. The notion of creating something that is impossible in reality has been at the forefront of my work.

I am constantly working on self initiated projects to keep my mind and skills fresh, continuously trying to challenge myself to become a better designer, and understand my interpretation of art and play day by day.

Previous Clientele
Adidas, Amazon, Nike, Eon, Pedigree, Sony, Converse, Mclaren, Carling.
