Professional Experience and Curriculum Vitae

Using trick photography and Photoshop manipulation she creates illusions that blend fantasy into the every day. Through the use of costumes, props and posing her conceptual self-portraits aim to tell imaginative stories that could easily have leaked from the pages of fairy tales. Magical realism is at the heart of her images which seek to thrill, inspire and provide an escape from reality, helping people recapture the wonder they felt hearing stories as a child.

Previous Clientele

Lollipop Land, personal commissions
