## Professional Experience and Curriculum Vitae

At the age of seventeen she enrolled in Glasgow Metropolitan College to complete a HND in Illustration. This was where the usefulness of Adobe Photoshop was discovered, as it was used as a tool to aid her work.

It was decided that a degree would further help her future job prospects, so she moved to Dundee to study Illustration at The Duncan of Jordanstone College of Art. She currently can be found in the third year Illustration department of said institution.

Her current work contains a mixture of Photography, digital collage and traditional drawing methods. Her inspiration is taken from many sources, but she finds herself particularly influenced by cinema, music, mythology and alternative culture.

She is currently in employment with a design company after winning a beer label design contest, where she has completed paid work on a beer website, beer poster designs and various beer related merchandise. Her future aim is to find work in a variety of areas to compliment her versatile style. She finds anything new a challenge.
