Professional Experience and Curriculum Vitae

I was born and raised in Bologna, where I live and work as a freelance illustrator and graphic designer since 2001. I draw and paint since I can remember, I can see faces everywhere, I gather pencils, I collect vinyl, I like watching the lightning during a thunderstorm, I love owls and cats and I find peace of mind in drawing while outside is snowing.

I am also a long time dj and have lived my whole life in music.
When I grow up, I will be an astronaut.
