Professional Experience and Curriculum Vitae
Currently in Chicago doing advertising for hospitals and health systems all over the country. I've learned so many medical terms at this point I could probably lie to people in the bar about being a doctor and never get busted. I have significant production experience and have created work for all mediums.

Previous Clientele
Current client list includes University of Iowa Hospitals and Clinics, UC Davis Health System, Palos Community Hospital, University of Arizona Medical Center and Hackensack University Medical Center. In my past life I worked for a tiny agency in San Diego working for clients you've never heard of before. I also made a cameo at DraftFCB working on Wheat Thins.

Awards and Accolades
