Andrew-Grant Fine Art Jan05 - Aug05

Small provincial Fine Art Auctioneers, which was about to close down. Increased sales revenue and attendance at Sales so that the division could be sold to a third party. The administration of a provincial auction house, prior to its sale. This included the operation of a bespoke auction data base software package for the general running of auction sales and other related tasks inc. generating correspondence, payment, catalogue production, stock control administration, provision of details to other staff members and all software related administration. Fine Art sales were held monthly in the salerooms, and also at local country hotels. Organising the production and monitoring of deadlines
